Hi there, can we help with your quote ?

[No, thanks](#) [Yes](#)

Powered by GENESYS

A web chat provides single-session chat capabilities to your website visitors

through a chat window. The chat window can appear when a visitor takes a specific action that prompts a chat offer, such as requesting a quote, or clicks an option to start a chat interaction. If the visitor accepts the chat offer or starts a chat interaction, Genesys Predictive Engagement routes the interaction to an agent queue.

## How Messenger appears

The screenshot displays the Universal Insurance website with a chat window titled "Message Us" overlaid on the right side. The website header includes a session ID "13656", an email input field, and "Login" and "Sign Up" buttons. The main navigation bar lists "Home", "Auto Insurance", "Home Insurance", "Business Insurance", "Life Insurance", and "Claim Centre". A large banner for "HOME INSURANCE FIRST TIME BUYERS SPECIAL DEAL" features an image of hands holding a house model. Below the banner, four insurance categories are promoted: Auto Insurance (with a car icon), Home Insurance (with a house icon), Motorcycle Insurance (with a motorcycle icon), and Life Insurance (with a family icon). Each category includes a brief description and "MORE" and "GET QUOTE" buttons. The chat window shows a greeting "Hi there" and "Thanks for reaching out!". The website footer contains links to "HOME", "SITEMAP", "CONTACT US", "CAREERS", "TERMS", "LIST", "CONFIG", "TIME MACHINE", and "IFRAME", along with copyright information for 2014-2016 Universal Insurance.

Universal Insurance an Equal Opportunity Employer

If you are a Genesys Cloud CX customer, your organization might be using the new web messaging

---

feature instead of web chat.

Web messaging provides asynchronous conversation capabilities to your website visitors through a Messenger window. For example, visitors can message you, leave your website, and return later to pick up the conversation where they left off. The Messenger window can appear when a visitor takes a specific action that prompts a messaging offer, such as requesting a quote, or clicks an option to start a messaging interaction. If the visitor accepts the messaging offer or starts a messaging interaction, Genesys Predictive Engagement routes the interaction to an agent queue.

How content offers appear

A content offer engages visitors on your website and encourages them to take a pre-defined action. A content offer can appear when a visitor takes a specific action, such as reviewing mortgage rates. If the visitor clicks the content offer, Genesys Predictive Engagement takes whatever action an administrator configured for the offer. For example, display a mortgage application.
