- 3 Arguments
- 4 GDPR and destroyed data

---

Learn how to use the `destroy` method to stop all Journey JavaScript SDK activity and remove all tracking information.

### Important

This article only applies to customers using web chat. If you are a Genesys Cloud CX customer, we encourage you to use the new web messaging feature to replace web chat.

## Description

The `destroy` method stops all Genesys Predictive Engagement SDK activity and removes all tracking information.

## Signature

```
ac('destroy')
```

## Arguments

None.

## GDPR and destroyed data

The `destroy` method stops all Genesys Predictive Engagement tracking immediately. It also removes all cookies that the SDK set; and doesn't offer anymore proactive engagements. Use the `destroy` method when a customer requests that you stop tracking their activities on your website. For more information about using Genesys Predictive Engagement in a GDPR-compliant manner, see [GDPR](#).
