GENESYS™

Genesys Data Layer Release Notes

January 29, 2019

5/25/2026

Contents

Release Notes for the **January 29, 2019** release of the Genesys Data Layer.

This is the first release of Genesys Data Layer. This release is only for lab deployments.

- Provides a stable, maintainable and consistent data bus and a unified data pipeline to Genesys products for use cases related to reporting.
- Isolates producers and consumers of data through a publish and subscribe architecture and data models.
