Genesys Voice Platform (GVP) comprises five services:

- GVP Configuration Server
- Service Discovery
- Reporting Server
- Resource Manager
- Media Control Platform

The diagrams in this topic illustrate the architecture of Genesys Voice Platform and the individual Pods.

For more information on the Genesys Multicloud CX private edition architecture, refer to the Architecture topic in the *Setting up Genesys Multicloud CX private edition* document.

The following diagram shows the GVP architecture:
