Upgrade GWS Ingress

Web Services and Applications supports a Rolling Update strategy to upgrade its services. To upgrade GWS Ingress, first Override the Helm chart values and Update the versions file for gws-ingress.

Next, run the following command to upgrade:

```
helm upgrade -f values.yaml -f versions.yaml gws-ingress ./gws-ingress
```

Rollback GWS Ingress

To rollback GWS Ingress, you can either use the `helm rollback` command or the `helm upgrade` command and specify the previous versions and values.

An example using `helm rollback`:

```
helm rollback gws-ingress
```

An example using `helm upgrade`:

```
helm upgrade -f previous-values.yaml -f previous-versions.yaml gws-ingress ./gws-ingress
```

Uninstall GWS Ingress

Use the following command to uninstall GWS Ingress:

```
helm uninstall gws-ingress
```
