Related tab in the Email interaction view

The **Related** tab is part of the interaction view. It might not be available in all environments.

The **Related** tab enables you to access all the interactions that are related to a single conversation. Sometimes multiple email interactions are created in the handling of a single case. Multiple individuals, both within and outside your organization, might also contribute to a single conversation.

The **Related** tab displays all the email interactions that are related to the current email interaction. Related interactions display as cards that contain information about each related interaction, including business attributes. Next to the title of the tab, the number of related interactions is specified in brackets. If there are 10 or more related interactions, the number 9+ is displayed.

The **Related** tab includes three main components:

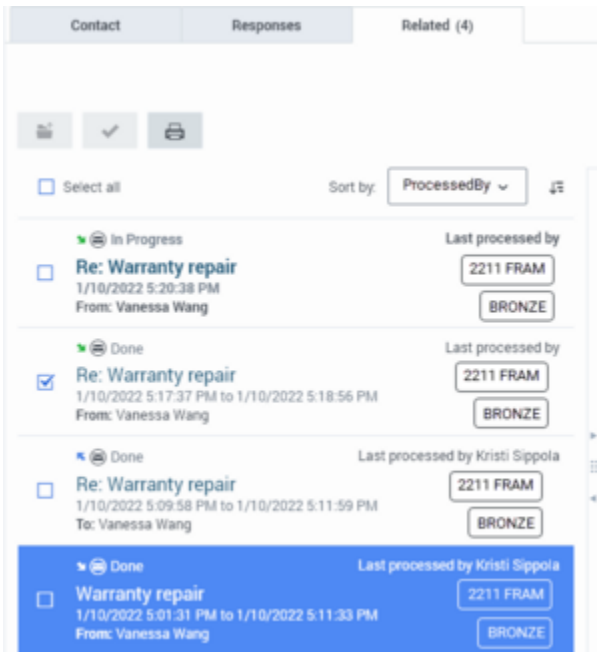

1. A sortable card view

-
2. The Details, Note, and Case Data view
 3. Quick Search

Sortable card view

The **Related interactions list view** contains a sortable list of interaction "cards". Each card contains information about the type and status of the interaction. Each card also includes the subject, date and time, origin, tags, and who last processed it.

The currently active interaction is displayed in bold text in the interaction card that represents it.

To select an interaction, click the **Select this interaction** check box next to the interaction. Buttons for available actions for the selected interaction are enabled.

To select all interactions, click the **Select all** check box. Buttons for available actions for the selected interaction are enabled.

To open the selected interaction for editing or handling, click **Open** (). Your account might be set up to enable you to open multiple interactions simultaneously.

To delete the selected interaction, click **Delete** (). Your account might be set up to enable you to delete multiple interactions simultaneously.

To mark the selected in-progress interaction as **Done**, click **Mark Done** (). You might have to select a disposition code before you can mark an interaction as **Done**.

To Print the selected email interaction, click **Print** ().

To select one of the available interaction attributes, such as **StartDate**, **ProcessedBy**, click the **Sort by attributes** menu or other standard and custom attributes. Your contact center administrator determines the list of available sort attributes.

The sort order buttons display the current sort order, either ascending order () or descending order (). To change to the opposite sort order, click the button.

To ensure that you are viewing the latest changes to the related interactions, click **Refresh** (.

Details, Note, and Case Data view

The Related interactions details panel includes the **Details**, **Note**, and **Case Data** tabs for the highlighted interaction in the Related interactions list view.

Details

The **Details** tab displays the content of the original interaction, along with detailed information including subject, contact name, from, to, and the date. To open the **Contact Directory** tab and search for the contact, click the contact name in the **Details** tab.

The screenshot shows the 'Details' tab selected. The left pane lists two email interactions. The first, 'Model 2212', is selected and highlighted in blue. It includes a '2211 FRAM' button and a 'BRONZE' button. The right pane displays the email content: Subject: Model 2212, Contact: Vanessa Wang, From: AVWang@mail.dom, To: web@mcr.dev, and the body text: 'Hello, My new Model 2212 framulator seems to be missing parts. How do I order them? VW'.

Note

The **Note** tab displays any Note content added to the original interaction. You might have to refresh the view to see updates to this tab.

The screenshot shows the 'Note' tab selected. The left pane is identical to the previous screenshot, with 'Model 2212' selected. The right pane displays the note content: 'Redirect to parts and service.'

Case Data

The **Case Data** tab displays the case information of the original interaction. You might have to refresh the view to see updates to this tab.

The screenshot shows the 'Case Data' tab selected in the top navigation bar. On the left, there is a list of cases. The first case, 'Model 2212', is highlighted in blue and shows a status of 'In Progress', a timestamp of '1/12/2022 5:43:48 PM', and 'From: Vanessa Wang'. It has buttons for '2211 FRAM' and 'BRONZE'. The second case, 'Re: Model 2212', shows a timestamp of '1/14/2022 5:18:06 PM' and 'To: Vanessa Wang', also with '2211 FRAM' and 'BRONZE' buttons. On the right, the 'Case Information' section is visible, showing 'Call Type: Service' and 'Disposition Code With Hierarchy: Selected Support\Hardware\Configuration'. A 'Details' tab is also visible in the top navigation bar.

Quick Search

Use the **Quick Search** feature to search for specific text or other interaction attributes within the related interactions.

The screenshot shows a 'Related (4)' tab selected. Below the tab, there is a search bar with a magnifying glass icon and the text 'Quick Search'. A refresh icon (circular arrow) is located at the bottom right of the search area.

For more information about how Quick Search works in Agent Workspace, refer to Using Quick Search.
