## Related tab in the Email interaction view

The **Related** tab is part of the interaction view. It might not be available in all environments.

The **Related** tab enables you to access all the interactions that are related to a single conversation. Sometimes multiple email interactions are created in the handling of a single case. Multiple individuals, both within and outside your organization, might also contribute to a single conversation.

The **Related** tab displays all the email interactions that are related to the current email interaction. Related interactions display as cards that contain information about each related interaction, including business attributes. Next to the title of the tab, the number of related interactions is specified in brackets. If there are 10 or more related interactions, the number 9+ is displayed.

The **Related** tab includes three main components:

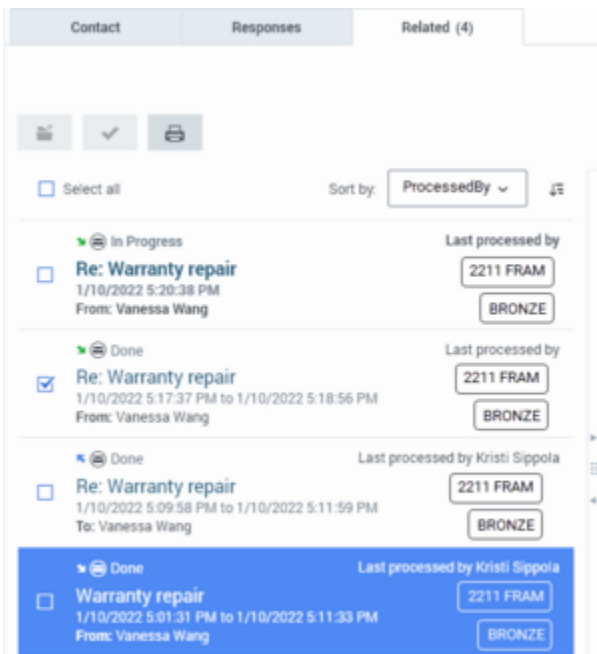

1. A sortable card view

- 
2. The Details, Note, and Case Data view
  3. Quick Search

## Sortable card view

The **Related interactions list view** contains a sortable list of interaction "cards". Each card contains information about the type and status of the interaction. Each card also includes the subject, date and time, origin, tags, and who last processed it.

The currently active interaction is displayed in bold text in the interaction card that represents it.

To select an interaction, click the **Select this interaction** check box next to the interaction. Buttons for available actions for the selected interaction are enabled.

To select all interactions, click the **Select all** check box. Buttons for available actions for the selected interaction are enabled.

To open the selected interaction for editing or handling, click **Open** (). Your account might be set up to enable you to open multiple interactions simultaneously.

To delete the selected interaction, click **Delete** (). Your account might be set up to enable you to delete multiple interactions simultaneously.

To mark the selected in-progress interaction as **Done**, click **Mark Done** (). You might have to select a disposition code before you can mark an interaction as **Done**.

---

---

To Print the selected email interaction, click **Print** ().

To select one of the available interaction attributes, such as **StartDate**, **ProcessedBy**, click the **Sort by attributes** menu or other standard and custom attributes. Your contact center administrator determines the list of available sort attributes.

The sort order buttons display the current sort order, either ascending order () or descending order (). To change to the opposite sort order, click the button.

To ensure that you are viewing the latest changes to the related interactions, click **Refresh** (.

## Details, Note, and Case Data view

The Related interactions details panel includes the **Details**, **Note**, and **Case Data** tabs for the highlighted interaction in the Related interactions list view.

### Details

The **Details** tab displays the content of the original interaction, along with detailed information including subject, contact name, from, to, and the date. To open the **Contact Directory** tab and search for the contact, click the contact name in the **Details** tab.

The screenshot shows the 'Details' tab selected in the Agent Workspace. On the left, a list of interactions is displayed, with 'Model 2212' (1/12/2022 5:43:48 PM, From: Vanessa Wang) highlighted. To the right, the 'Details' panel shows the following information:

- Subject:** Model 2212
- Contact:** [Vanessa Wang](#)
- From:** AVWang@mail.dom
- To:** web@mcr.dev
- Date:** 1/12/2022 5:43:48 PM

The email content is displayed below the header:

Hello,  
My new Model 2212 framulator seems to be missing parts. How do I order them?  
VW

### Note

The **Note** tab displays any Note content added to the original interaction. You might have to refresh the view to see updates to this tab.

The screenshot shows the 'Note' tab selected in the Agent Workspace. The left sidebar remains the same, with 'Model 2212' highlighted. The 'Note' panel on the right displays the following content:

Redirect to parts and service.

---

## Case Data

The **Case Data** tab displays the case information of the original interaction. You might have to refresh the view to see updates to this tab.

The screenshot shows the 'Case Data' tab selected in the top navigation bar. The main area is divided into two columns. The left column contains a list of cases, each with a checkbox, a status icon (a person with a speech bubble), the case title, date, time, and from/to information. The first case is 'Model 2212' with a date of '1/12/2022 5:43:48 PM' and 'From: Vanessa Wang'. The second case is 'Re: Model 2212' with a date of '1/14/2022 5:18:06 PM' and 'To: Vanessa Wang'. Both cases have a '2211 FRAM' label and a 'BRONZE' label. The right column shows the 'Case Information' section, which includes 'Call Type' (Service) and 'Disposition Code With Hierarchy' (Selected, Support\Hardware\Configuration). A 'Details' tab is also visible in the top navigation bar.

## Quick Search

Use the **Quick Search** feature to search for specific text or other interaction attributes within the related interactions.

The screenshot shows a 'Related (4)' tab selected in the top navigation bar. Below the tab is a search bar with a magnifying glass icon and the text 'Quick Search'. A refresh icon (a circular arrow) is located at the bottom right of the search bar.

For more information about how Quick Search works in Agent Workspace, refer to Using Quick Search.
