In the **Statistics** section of the **Contact Center Settings** page, you can configure the following options:

- **Default Statistics displayed** specifies the statistics displayed in the Agent Workspace menu bar. The statistic specified by this option is the name of a section containing the statistic definition or the statistic object.
- **Refresh Time** defines the frequency of notification (in seconds) for statistics.
- **Time for Statistics Reset** specifies the time that you want agent and call center statistics to be reset in Agent Workspace. Indicate the time using UTC time in 24-hour format. For example, PDT midnight is 7AM in UTC and should be specified as 7:00.
- Maximum quantity of Gadget Statistics displayed specifies the quantity of statistics displayed.
