<input checked="" type="checkbox"/> Can One Step Transfer	
<input checked="" type="checkbox"/> Can Set Interaction Disposition	

Workitems, called Open Media by Genesys Digital channels, are documents that might be directed to an agent for handling.

In the **Workitem** section under **Desktop Options**, configure the following options:

- **Auto answer** automatically accept an interaction when an invite event is received.
- **Prompt for done** presents a confirmation message to the user when they press the **Done** button. This option is only available for Open Media interactions.
- **Workitem ringtone type** specifies the sound that is played when a Workitem interaction is ringing.
- **Workitem ringtone priority** specifies the priority of a Workitem ringtone. The higher the integer, the higher the priority.

-
- **Workitem ringtone duration** specifies the duration of a Workitem ringtone (-1 plays and repeats the sound until an action is taken, 0 play the whole sound one time, and an integer > 0 sets a time in milliseconds to play and repeat the sound).
 - **Decline** enables the agent to decline incoming Workitem interactions.
 - **Mark Done** enables the agents to mark done a Workitem interaction without further processing.
 - **One-step transfer** enables the agent to use instant Workitem transfer.
 - **Interaction Disposition** enables the agent to set the disposition codes for Workitem interactions.
