|      |                                                                       |
|------|-----------------------------------------------------------------------|
| POST | /operations/get-statistic-ex<br>Get the values of a set of statistics |
|------|-----------------------------------------------------------------------|

Get the current value of predefined statistics from Stat Server without a subscription.

Parameters

| Name       | Default | Description                                                           | Parameter Type | Data Type | Required |
|------------|---------|-----------------------------------------------------------------------|----------------|-----------|----------|
| statistics |         | The set of statistics you want to get the values of from Stat Server. | body           |           | true     |

{object}

Responses

| Code | Reason |
|------|--------|
| 200  | Ok     |

## Usage

```

curl -X POST
-H "x-api-key: your_API_key"
-H "Content-Type: application/json"
-d '{object}'
"https://api-demo.com/statistics/v3/operations/get-statistic-ex?"

```

|     |                                                                          |
|-----|--------------------------------------------------------------------------|
| GET | /statistic-values/{statisticName}<br>Get the value of a single statistic |
|-----|--------------------------------------------------------------------------|

Get the current value of a statistic from Stat Server.

### Parameters

| Name          | Default | Description                                           | Parameter Type | Data Type | Required |
|---------------|---------|-------------------------------------------------------|----------------|-----------|----------|
| objectId      |         | The ID of the object.                                 | query          | string    | true     |
| objectType    |         | The type of object to which the statistic is applied. | query          | string    | true     |
| statisticName |         | The name of the pre-configured statistic to retrieve. | path           | string    | true     |

## Usage

```

curl -X GET
-H "x-api-key: your_API_key"
-H "Content-Type: application/json"

```

"https://api-demo.com/statistics/v3/statistic-values/{statisticName}?objectId=string&objectType=string"

|      |                                       |
|------|---------------------------------------|
| POST | /subscriptions<br>Open a subscription |
|------|---------------------------------------|

Open a subscription for the specified set of statistics.

## Parameters

| Name                | Default | Description                                                                                                                                           | Parameter Type | Data Type | Required |
|---------------------|---------|-------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|-----------|----------|
| statistics          |         | Definitions of the statistics to monitor.                                                                                                             | body           |           | true     |
| <pre>{object}</pre> |         |                                                                                                                                                       |                |           |          |
| verbose             | INFO    | Specifies whether the Statistics API should return additional information about opened statistics in the response. Possible values are: OFF and INFO. | query          | string    |          |

## Usage

```

curl -X POST
-H "x-api-key: your_API_key"
-H "Content-Type: application/json"
-d '{object}'
"https://api-demo.com/statistics/v3/subscriptions?verbose=string"

```

|        |                                              |
|--------|----------------------------------------------|
| DELETE | /subscriptions/{id}<br>Delete a subscription |
|--------|----------------------------------------------|

Delete the specified subscription by closing all its statistics. This is a fire-and-forget operation and it always returns a success response.

### Parameters

| Name | Default | Description                           | Parameter Type | Data Type | Required |
|------|---------|---------------------------------------|----------------|-----------|----------|
| id   |         | The ID of the subscription to delete. | path           | string    | true     |

## Usage

```

curl -X DELETE
-H "x-api-key: your_API_key"
-H "Content-Type: application/json"

```

"https://api-demo.com/statistics/v3/subscriptions/{id}?"

|     |                                                                                        |
|-----|----------------------------------------------------------------------------------------|
| GET | /subscriptions/{id}/statistic-values<br>Get the values of statistics in a subscription |
|-----|----------------------------------------------------------------------------------------|

Get the values of a set of statistics that was opened with a subscription.

### Parameters

| Name         | Default | Description                                                                                                                                                                                                                                            | Parameter Type | Data Type | Required |
|--------------|---------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|-----------|----------|
| id           |         | The ID of the subscription.                                                                                                                                                                                                                            | path           | string    | true     |
| statisticIds |         | A comma-delimited list of statistic IDs that belong to the specified subscription. If omitted, the Statistics API returns the current values of all statistics opened within the subscription. If specified, the Statistics API returns values for the | query          | string    |          |

| Name    | Default | Description                                                                                                                                           | Parameter Type | Data Type | Required |
|---------|---------|-------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|-----------|----------|
|         |         | statistics with the specified IDs.                                                                                                                    |                |           |          |
| verbose | INFO    | Specifies whether the Statistics API should return additional information about opened statistics in the response. Possible values are: OFF and INFO. | query          | string    |          |

## Responses

| Code                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Reason                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |                |  |      |                                                                             |          |                                                             |            |                                  |             |                                                                                  |           |                                                                                               |       |                                          |
