Queue folder and subfolders

Important

Use this document for Genesys CX Insights Multicloud deployments. For information relevant to Genesys CX Insights on-premises deployments, see the corresponding page in the *Genesys CX Insights on-premises Projects Reference Guide*.

The Queue folder contains numerous objects that enable the organization and filtering of Info Mart data based on queue-related information. The folder is organized into a series of subfolders, to make it easier to find the objects you need, as described in the following table. Many folders contain Custom folders, which are not described in this document; custom folders are provided to store any custom objects.

Important

Objects in each folder or subfolder are designed to be used together to create reports. Avoid mixing attributes and metrics from multiple folders into your reports. One exception to this rule is objects in the Time folder; Time attributes can be used in any report, and most reports include at least one attribute from the Time folder.

This folder contains the following root folder and subfolders.

• Queue	• Queue > Q Customer	Consults
• Queue > Q Consults	• Queue > Q Customer &	• Queue > Q Customer &

Consults > Abandoned Waiting ST1	Consults > Accepted Agent ST1	Routing
<ul style="list-style-type: none"> • Queue > Q Customer & 	<ul style="list-style-type: none"> • Queue > Queue Predictive 	<ul style="list-style-type: none"> • Queue > Queue User Data Example

Folder: Queue

Introduced: 9.0.007.03

Description: The root folder for queue-related subfolders and their components. Refer to the descriptions of the following subfolders for more information:

- Q Consults
- Q Customer
- Q Customer & Consults
- Q Predictive Routing
- Queue User Data Example

Folder: Queue > Q Consults

Introduced: 9.0.007.03

Description: All objects in this folder enable the organization, measurement, and filtering of Info Mart data based on the queue(s) through which consult interactions pass. Counts and duration metrics are attributed to the reporting interval in which interactions entered the queue—even for agent-related metrics.

Metrics:

Folder: Queue > Q Customer & Consults

Introduced: 9.0.007.03

Description: All objects in this folder enable the organization, measurement, and filtering of Info Mart data based on the queue(s) through which both customer and consult interactions pass. Counts and duration metrics are attributed to the reporting interval in which interactions entered the queue—even for agent-related metrics.

Metrics:

• Abandoned Inviting	• Distribute Time	• Offered
• Abandoned Waiting	• Distributed	• Redirected
• Abandoned Waiting Time	• Engage Time	• Routed Other
• Accept Time	• Entered	• Short Abandoned Waiting
• Accept Time Agent	• Hold	• Standard Abandoned Waiting
• Accepted	• Hold Time	• Standard Abandoned Waiting Time
• Accepted Agent	• Invite	• Stuck
• Accepted Agent in Threshold	• Invite Time	• Transfer Initiated Agent
• Accepted in Threshold	• Max Standard Abandoned Waiting Time	• Wrap
• Accepted Others	• Max Standard Abandoned Waiting Time (Fmt)	• Wrap Time
• Clear Time	• Not Accepted	
• Cleared

• There are no attributes in this	folder.
-----------------------------------	---------

Folder: Queue > Q Customer & Consults > Abandoned Waiting ST1

Introduced: 9.0.007.03

Description: All objects in this folder enable the measurement of Info Mart data based on the time interval in which interactions are abandoned in the queue.

Metrics:

• % Abandoned Waiting ST 1-20	• Abandoned Waiting	• Abandoned Waiting ST 1-20
-------------------------------	---------------------	-----------------------------

Attributes:

• There are no attributes in this	folder.
-----------------------------------	---------

Folder: Queue > Q Customer & Consults > Accepted Agent ST1

Introduced: 9.0.007.03

Description: All objects in this folder enable the measurement of Info Mart data based on the time interval in which agents accept or answer interactions that pass through the queue.

Metrics:

- % Accepted Agent ST 1-20
- Accepted Agent
- Accepted Agent ST 1-20

Attributes:

- There are no attributes in this folder.

Folder: Queue > Queue Predictive Routing

Introduced: 9.0.007.03

Description: All objects in this folder enable the organization, measurement, and filtering of Info Mart data based on the queue(s) through which Genesys Predictive Routing (GPR) interactions pass.

Metrics:

- % Error
- Active
- Agent Score
- Avg Agent Score
- Error

Attributes:

- Model
- Predictor
- Predictor Switch

Folder: Queue > Queue User Data Example

Introduced: 9.0.007.03

Description: All objects in this folder enable the organization and filtering of Info Mart data based on user data dimensions.

Metrics:

- There are no metrics in this folder
