The reports in the **Agents** folder are ready-to-use, but as always, can be modified to suit your specific business needs.

Tip

Interactions pertaining to an agent are attributed to each group of which the agent is a member. So, in scenarios where an agent is a member of more than one agent group, interactions are counted against each group, and can therefore appear more than once in historical reports. Similarly, interactions that are attributed to queues that are members of more than one queue group are reported against both queue groups.

About Agents reports

The screenshot shows the CX Insights interface with a sidebar on the left containing various reports and objects. The 'Agents' folder under 'CX Insights' is highlighted with a red oval. The main area displays six reports with their respective icons, owners, modified dates, and brief descriptions.

- Agent Conduct Report**
Owner: Administrator
Modified: 6/6/17 8:07:31 PM
Use this report to contrast agent interaction handling performance against the agent group performance, based on various measures, including Accepted/Rejected, Responses, and Handle Time, Hold Time, Wrap Time, and whether a Consult was initiated.
