Reports in the **Outbound Contact** folder are ready-to-use, but as always, can be modified to suit your specific business needs.

About Outbound Contact reports

The screenshot displays the Genesys CX Insights navigation pane on the left, with the **Outbound Contact** folder selected. The main content area shows three reports:

- Campaign Callbacks Summary Report**
Owner: Administrator
Modified: 6/6/17 8:09:32 PM
Use this report to understand the frequency with which Callback was used in your Outbound campaigns, and the overall Callback success rates.
- Campaign Summary Report**
Owner: Administrator
Modified: 6/6/17 8:09:35 PM
Use this report to understand the disposition of Outbound campaign contact dialing attempts; whether calls connected, were dropped, or failed (together with the reason for failure).
- Contact List Effectiveness Report**
Owner: Administrator
Modified: 6/6/17 8:09:38 PM
Use this report to determine which calling lists are working efficiently, and which need to be adjusted. The report contrasts, for each list, the number of outbound call attempts to the number of times the call failed to connect (SIT tone detected).

The following reports are available in the **CX Insights > Outbound Contact** folder:

-
- Campaign Callbacks Summary Report
 - Campaign Summary Report
 - Contact List Effectiveness Report
