The (**CX Insights for iWD** folder >) **Customer Segment Service Level Dashboard** provides insights into the fulfillment of Service Level Agreements, by exploring the percentage of tasks that were completed during a specified interval. Visualizations illustrate the handling volumes by customer segment and business process, allowing you to compare achievements against your business objectives with a focus on each customer segment's progress over time.

Summary tab

The dashboard report organizes data on the following tabs:

• **Summary** tab — This tab provides a high-level summary, presenting a summary for each product, for the entire reporting period, as a single line item, and provides representations of work completed broken out by Product, Department and Process, and Customer Segment. It provides a **Day** slider, which you can use to quickly focus on a given day or range of days.

• **Throughput Calendar** tab — This tab breaks down performance for each product, by day, and provides a calendar widget that shows you the relative performance on each day in the reporting period, and allows you to easily focus on a day, or range of days.

Throughput Calendar tab

Note that the term *dashboard* is used interchangeably with the term *dossier*. Dashboards provide an interactive, intuitive data visualization, summarizing key business indicators (KPIs). You can change how you view the data in most reports and dashboards by using interactive features such as selectors, grouping, widgets, and visualizations, and explore data using multiple paths, through text and data filtering, and layers of organization.

To get a better idea of what this dashboard looks like, view sample output from the report: Sample Customer Segment Service Level Dashboard.pdf

The following table explains the prompts you can select when you generate the Customer Segment Service Level Dashboard:

| Prompt | Description | | | | |
|---------------------|--|--|--|--|--|
| Pre-set Date Filter | Choose from the convenient list of predefined rolling time ranges spanning one day or more, and move it to the Selected list. | | | | |
| Start Date | Choose the first day from which to gather report data. | | | | |
| End Date | Choose the last day from which to gather report data. | | | | |
| Department | Optionally, select one or more departments on which to report. | | | | |
| Process | Optionally, select one or more business processes on which to report. | | | | |
| Customer Segment | Optionally, select a Customer Segment on which to focus the report. | | | | |
| Media Type | Optionally, select one or more media types for which to gather data into the report. | | | | |

Prompts on the Customer Segment Service Level Dashboard

The following table explains the attributes used in the Customer Segment Service Level Dashboard:

| Attribute | Description |
|-------------------------|--|
| Summary Tab | |
| Day | Enables data within the reporting interval to be organized by a particular day within a month and year. Day values are presented in YYYY-MM-DD format. |
| Department | Enables data to be organized by the name of the department for which iWD prioritizes and routes tasks. |
| Process | Enables data to be organized by the name of the business process, which is a core attribute of tasks and work items that define strategies for how to route them. |
| Customer Segment | Enables data to be organized by the customer segment, which is an extended attribute of a task or work item that is assigned by the source system. |
| Product | Enables data to be organized by the type of product. |
| Throughput Calendar Tab | |
| Department | Enables data to be organized by the name of the department for which iWD prioritizes and routes tasks. |
| Process | Enables data to be organized by the name of the business process, which is a core attribute of tasks and work items that define strategies for how to route them. |
| Customer Segment | Enables data to be organized by the customer segment, which is an extended attribute of a task or work item that is assigned by the source system. |
| Product | Enables data to be organized by the type of product. |
| Day | Enables data within the reporting interval to be organized by a particular day within a month and year. Day values are presented in YYYY-MM-DD format. |

Attributes in the Customer Segment Service Level Dashboard

The following table explains the metrics used in the Customer Segment Service Level Dashboard:

Metrics in the Customer Segment Service Level Dashboard

| Metric | Description |
|--------------------------|--|
| % Finished | The percentage of tasks of this classification that were finished during the reporting interval. |
| Finished / Finished Work | The total number of tasks of this classification that were finished during the reporting interval. |
| Delta | The change in the number of tasks during the time |

| | period. A positive value indicates that there are more tasks incomplete at the end of the interval than there were at the beginning, while a negative value indicates fewer incomplete tasks. |
|----------------|--|
| New / New Work | Number of new tasks that were submitted to iWD during the given time interval. Tasks are counted only after they have been classified. |

To view more detailed information about the metrics and attributes in this report, and other metrics and attributes that can be used to customize reports, see the *Genesys CX Insights Multicloud Projects Reference Guide*.
