Use Genesys Pulse dashboards and wallboards to display real-time reports.

#### **Related documentation:**

- 
- 

Use Pulse dashboards and wallboards to display real-time reports within widgets, so that you can monitor your contact center to suit your needs.

Dashboards are for personal use, and provide drill-down reports and contain more detail than a wallboard.

Wallboards can broadcast information on a large screen for a team of people. You can use only KPI widgets on your wallboards.

## Add a Dashboard or Wallboard

The screenshot shows the Pulse interface with a dashboard titled "Demo Dashboard" selected. The dashboard displays two tables: "Agent Login" and "Agent KPIs". A modal window titled "What would you like to open or create?" is open, showing two options: "Dashboard" and "Wallboard".

**Agent Login**

Time in Status	
Burlingame, Gregoria	119:15:05
Bat, Demarcus	119:15:05
Anastasio, Jae	119:15:05
Bufkin, Sandra	119:15:05
Candy, Adrian	119:15:05

**Agent KPIs**

Name	Handle Time	Hold Time	Held
Dergalin, Ilya	02:26:48	00:44:38	7730
Ellington, Duke	02:35:58	00:38:45	1095
Iname5463, fname5463	01:03:29	02:30:52	614
Iname5464, fname5464	02:08:31	01:22:22	2141

**Agent Login Extended Status**

Name	Login Time
Anastasio, Jae	01:01:25
Bat, Demarcus	01:01:34
Bufkin, Sandra	01:01:30
Burlingame, Gregoria	
Candy, Adrian	

**What would you like to open or create?**

**Dashboard** 

Dashboards are meant for your own personal use and are designed for desktop usage. You will be able to drill down into widgets for deeper analysis.

**Wallboard** 

Wallboards are meant to broadcast and share information to your entire team. They are designed for large screen sizes in public spaces.

To open or create a new dashboard or wallboard, click **Add a Dashboard**, and choose between a dashboard and a wallboard.

The wizard guides you through the rest of the steps.

Once you have created a dashboard or wallboard, you can edit the title and set other options, such as Alert Notifications or the wallboard color theme. Select **Customize** from the dashboard menu to adjust settings.

---

Customize (Current Status)

Dashboard Name:

Description:

Enable alert notifications in list

Theme:

Header:  Customize the header to reflect the company branding

**Current Status** Powered by GENESYS®

Health Color:  Bad Color:

Display Size:

---

## Display Wallboard Data in Full-screen Mode

Select **Launch** from the wallboard More menu to display the data in full-screen mode.

You can choose several wallboards to cycle. You can use pinned to the bottom Text Widget (see the Widget Templates page for more info) as a news ticker. This Footer Text Source (pinned Text Widget) will remain unchanged while wallboards are cycling.

## Manage Shared Dashboards and Wallboards

	Name	Description	Widget Count	Modified
<input type="checkbox"/>	> Pulse			
<input type="checkbox"/>	Environment			
<input type="checkbox"/>	Scripts			
<input type="checkbox"/>	QA			
<input checked="" type="checkbox"/>	Demo Dashboard		5	10/02/2017
<input type="checkbox"/>	jgikh		7	04/01/2016
<input type="checkbox"/>	testing 123		1	04/06/2016

To manage shared dashboards and wallboards select **Manage**.

From here you can perform actions on dashboards and wallboards, including assigning them to groups of users.

Genesys Pulse lists saved and shared items in a table and displays item details to the right.

### Tip

See Widget Templates to learn how to simplify widget creation.

## Hide or Share a Dashboard or Wallboard with Other Users

You can share your custom dashboard or wallboard with others (for example, with a user group such as Sales Team Leads). When you **Publish** or **Save As** from the more menu, you must select **Save to Genesys Configuration Server**, and choose the directory to save and share the dashboard with others. Be sure to give it a name specific to the user's needs.

Use Dashboard Management to hide your dashboard from others. Select a dashboard, click **Link to Configuration Manager** on the right under **Access Groups**, and set permission settings for people who will view your dashboards.

---

## Tip

You might not be able to manage access to your dashboards for other users, check with your supervisor or system administrator.

To save dashboards or wallboards to Genesys Configuration Server, you need the Full Control access to the target directory.

## What do I do next?

You might want to learn more about:

- Dashboard and wallboard examples
- Add report widgets to your dashboard or wallboard
- Popular real-time reports
- Displaying external content using an IFRAME widget
