Tip

A legend at the bottom of the window indicates the particular type of schedule item that each bar color represents.

You can modify schedule items for individual agents in this view and insert schedule items for multiple agents.

Displaying the view

To display the **Master Schedule Agent-Extended** view:

4. In the **Objects** pane, select a single business unit, a single site within a business unit, or a single agent within a site.

Using the grid

The **Agent-Extended** view includes a grid for the selected agent. Each row in the grid contains a color-coded bar. Each bar represents a scheduled day or day off for the selected agent. The table below explains the fields and controls.

Double-click cells containing these items, to edit them: **Shift**, **Activity Set**, **Time Off**, **Meal**, **Break**, **Exception**, **Marked Time**.

Mode:	The starting Mode is set to the default of one week, but can be changed to Schedule Planning Period (if Schedule Planning Periods are in use at your site).
