# PureConnect Use Cases

Genesys Workforce Scheduling for Voice (EE01) for PureConnect

#### **Important**

The Optimizer Use Case for PureConnect is not available. Please reference the Genesys Workforce Scheduling for Voice (EE01) for Genesys Engage on-premises product and use case as a Workforce Engagement Management option.

#### Optimize employee utilization for voice interactions

# What's the challenge?

Optimizing employees' schedules is a tricky balance. Under staff, and customer experience can suffer as wait times climb, SLAs slip, and agents feel pressured. Over staff, and high workforce costs cut into your bottom line. Without easy, accurate forecasts, it's hard to schedule your workforce effectively.

#### What's the solution?

Find the right balance. Your Genesys solution automatically gathers data, making it easy to get accurate forecasts and scheduling scenarios across queues and activities. Factor in agent skills and contract rules to cover your bases, and get real-time insight and monitoring into SLAs and schedule adherence.
