Explore the basics of Genesys Widgets for Genesys Cloud CX.

Related documentation:

-

If you are a Genesys Cloud CX customer, we encourage you to use the new web messaging feature to replace web chat. To use web messaging, you configure tracking through the Messenger JavaScript SDK instead of deploying a tracking snippet.

Introduction

Genesys provides streamlined, lightweight, extensible, and mobile optimized widgets. By embedding widgets on your website, you can obtain great customer experiences powered by Genesys Cloud CX. Genesys Widgets provides your customers with access to self or assisted services, which can also be personalized and proactively offered based on monitoring of your users' web navigation patterns.

Within Genesys Cloud CX, the Web Chat widget version 2 allows customers to start a chat conversation with your business, either through bots or with a live agent.

For more information about the Genesys Cloud CX Web Chat solution, see About widgets for web chat in the Genesys Cloud CX Resource Center.
