Frequently Asked Questions

Q: Why is Genesys retiring these applications?

A: Genesys has seen limited adoption of our co-browsing functionality and the level of effort required to maintain it outweighs the financial benefits for Genesys. We believe that other areas of our portfolio will offer more impact on Experience-as-a-Service going forward, so we have decided to re-direct our resources to other solutions creating more value to our customers, and to rely on expert third parties to offer the capability.

Q: What are customers' options?

A: Genesys recommends that customers currently using Genesys Co-browse to upgrade to the partner options – [Glance](#) or [Cobrowse.io](#), available via the [AppFoundry](#) and [Genesys PS](#) – before Genesys ends support on **January 31, 2024**.

Q: What if I need help or have questions?

A: If you need help or have questions about this migration, reach out to your Customer Success Manager or contact Genesys Customer Care (My Support).
